

This map represents the property acquired by the Port of New Orleans in Violet, LA. The property totals roughly 1,100 acres. Port NOLA anticipates utilizing approximately 400 acres for the new container terminal. The remaining green space will separate neighbors from terminal activity and leaves room for other potential community assets. Other parts of the property will be used to support new cargo-related businesses. Design and land use will be finalized through the public permitting process. More information is available at yourworkingriver.com.
